

Tom Gresham's GunTalk

Tom Gresham's Gun Talk is the **ONLY** nationally-syndicated radio talk show about guns in the country! Since 1995, Tom Gresham has been providing an international forum for firearm enthusiasts!

It all started when Tom was attending the SHOT Show, the huge annual trade show for the firearms industry, when a casual conversation led to the idea of a radio talk show about guns. Only six weeks later he was on the air, being beamed to three satellites and 20 radio stations. And today Gun Talk is carried on 70 RADIO STATIONS across the country, streaming online and available via Podcasts!

With over 80 MILLION gun owners in America, many have questions. Whether it be the serious hunter or competition shooter or a single woman wanting to purchase a handgun, they turn to Tom Gresham's Gun Talk. It's an issue of SAFETY for themselves and their families now more than ever. It's also an issue of TRADITION, a way to spend time outdoors with friends and family. Gun Talk answers their questions and speaks to their way of life.
